The art of medicine meets the science of beauty at Spa City Spa. We are the first Medical Spa in the area and provide the Capital District with world-class skin care. Dr. Jean Buhac is a board-certified dermatologist fully committed to being involved with all patients who choose Spa City Spa.

We start with a foundation of medical dermatology. Dr. Jean Buhac has performed scientific research on skin aging. She has studied with world-renowned dermatologists at the University of Iowa and Harvard. Dr. Jean Buhac is solely committed to practicing dermatology and has seen tens of thousands of patients. This has provided her with tremendous clinical expertise.

At Spa City Spa we offer a range of facial rejuvenation procedures and products to restore youthful features. Dr. Buhac personally performs all Botox injections, all Restylane and other injectables, all advanced chemical peels and consults with each laser patient prior to treatment. Our goal is to develop a combination of treatments that best help the individual attain their desired results.
